Additional Information

Scope/range related to performance criteria

The details in this field are explanatory statements of scope and/or examples of possible contexts in which the NOS may apply; they are not to be regarded as range statements required for achievement of the NOS.

Note: Where an individual finds it difficult or impossible to express their own preferences and make decisions about their life, achievement of this standard may require the involvement of advocates or others who are able to represent the views and best interests of the individual.

Where there are language differences within the work setting, achievement of this standard may require the involvement of interpreters or translation services.

Active participation is a way of working that regards individuals as active partners in their own care or support rather than passive recipients. Active participation recognises each individual's right to participate in the activities and relationships of everyday life as independently as possible A care or support plan is a formal plan that must be developed and agreed with the individual and/or those who are able to represent the individual's best interests. It addresses the holistic needs of the individual and contains

information on all aspects of that person's care requirements. The care or support plan must underpin the individual's care and support within any health or social care setting

To **communicate** may include using the individual's preferred spoken language; the use of signs; the use of symbols or pictures, writing, objects of reference, communication passports; the use of touch; other non verbal forms of communication; human and technological aids to communication

Dietary requirements may be related to particular illnesses and conditions of the individual, for example, diabetes; the health needs of the individual i.e. sufficient amounts of food and drink effectively balanced to sustain the health of the individual; the religious, cultural, social, psychological and spiritual needs of the individuals

Food and drink may include, snacks, meals, hot drinks and cold drinks **Guidelines for healthy eating** may include reducing fat, salt and sugar content; increasing fibre

The **individual** is the person you support or care for in your work. **Key people** are those who are important to an individual and who can make a difference to his or her well-being. Key people may include family, friends, carers and others with whom the individual has a supportive relationship. To **prepare food** may include cooking, heating foods, opening food packages, handling raw food, peeling, washing, and placing pre-prepared food on plates **Risks** could be from incorrect preparation and storage of food and drink, infection and contamination; individuals who eat and drink items that they should not or a sudden and unexpected reaction to food and drink **Specialist equipment** may include specialist crockery, utensils and other aids and equipment
